COURSE CODE/TITLE:	CPE 031	**SECTION:**	CPE21S1
DATE PERFORMED:	08/08/2026	**DATE SUBMITTED:**	08/08/2026
NAME:	Al Twain D. Pasion	**INSTRUCTOR:**	Engr. Jimlord Quejado

ACTIVITY NO. 4 Data Analytics Career

1. PROCEDURE OUTPUT

What procedures did you perform?

4.1.5

4.1.5 Practice Item – Job Market

Getting hired as a data analyst is the first step in your data analytics career.

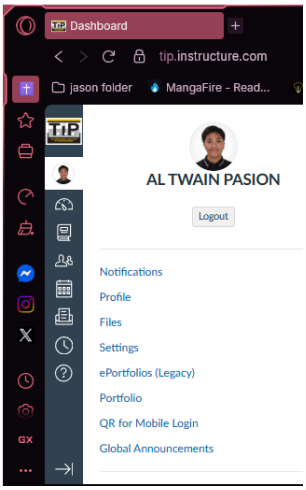

Research career paths in data analytics on internet job sites, such as indeed.com, DataJobs.com, and LinkedIn.com. Then write in the box below one or more paths that fit your interests. After you **Submit** your answer, you can select **Show model answer** to review some common data professional career path examples.

802 Remaining characters

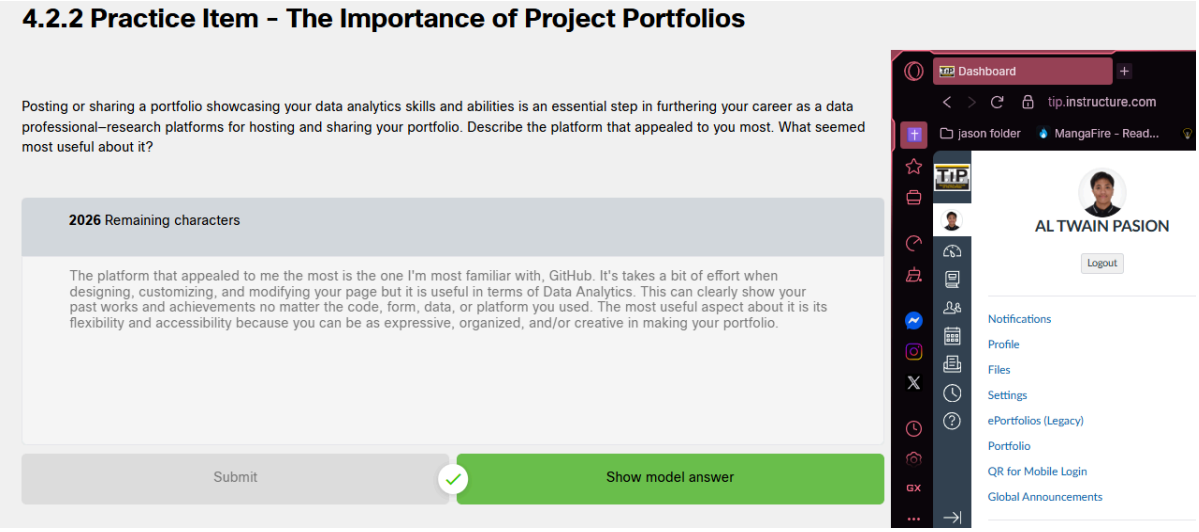

After some research, career paths similar to Product and Financial Analytics are aligned with my interest. Examining data from user-interaction with the product can be helpful in making it more reliable and user-friendly. I've had some experiences with alpha-testing some games in the past, and I believe this experience is valuable with this career path. The other one is the Financial Analytics, where you compare factors such as sales performance, budget, profit and loss, revenue and expenses, and etc. This career path particularly piqued my interest due to you interpretating "finances". Since Highschool, I've handled this field in our entrepreneur-centered subjects and I had a knack at it.

After some research, career paths similar to Product and Financial Analytics are aligned with my interest. Examining data from user-interaction with the product can be helpful in making it more reliable and user-friendly. I've had some experiences with alpha-testing some games in the past, and I believe this experience is valuable with this career path. The other one is the Financial Analytics, where you compare factors such as sales performance, budget, profit and loss, revenue and expenses, and etc. This career path particularly piqued my interest due to you interpreting "finances". Since Highschool, I've handled this field in our entrepreneur-centered subjects and I had a knack at it.

4.2.2
 The platform that appealed to me the most is the one I'm most familiar with, GitHub. It takes a bit of effort when designing, customizing, and modifying your page but it is useful in terms of Data Analytics. This can clearly show your past works and achievements no matter the code, form, data, or platform you used. The most useful aspect about it is its flexibility and accessibility because you can be as expressive, organized, and/or creative in making your portfolio.

Conclusion
Being fluent in Data can be beneficial in the present era. It can be applied to any business and is very significant. This career path focuses on managing and interpreting information that can further develop your ideas and products, which is why it is a high-paying job.

2. ANSWERS TO SUPPLEMENTAL ACTIVITY

Copy and paste the questions from the lab and include your answers after.

3. ARTIFICIAL INTELLIGENCE (AI) USE DISCLOSURE STATEMENT

I hereby declare that artificial intelligence (AI) tools were used, if applicable, in the preparation of this academic work. The following indicates the nature and extent of AI assistance:

Tools Used: _____

Examples: ChatGPT, Microsoft Copilot, Grammarly, QuillBot, etc.

Purpose of Use: _____

Examples: grammar correction, idea generation, formatting, summarization, code assistance, explanation of concepts, etc.

Extent of Use: _____

Explain how AI was used and confirm that it did not replace original thinking, analysis, authorship, or completion of the required work.

By submitting this activity, I affirm that my use of AI complies with T.I.P.'s AI usage policy and does not exceed the permitted limits for similarity, automated content generation, or academic assistance.

I understand that any false, incomplete, or misleading disclosure may be subject to investigation in accordance with due process and may result in sanctions for violation of existing T.I.P. policies.

Lab activities, templates, and related instructional materials shall not be reuploaded, reproduced, distributed, or shared with external organizations or third parties without the prior express written permission of the Technological Institute of the Philippines.
